### **M/A-COM Technology Solutions Promotes Suja Ramnath to Vice President and General Manager, RF Semiconductors**

**Lowell, MA, May 11, 2010** – M/A-COM Technology Solutions Inc. (M/A-COM Tech), a leading supplier of semiconductors, active and passive components and subassemblies for radio frequency (RF), microwave and millimeter wave applications, announced today that Suja Ramnath has been promoted to Vice President and General Manager, RF Semiconductors. In this role Ms. Ramnath will align products to growth markets and applications to deliver a targeted market approach to selling product solutions. As an industry veteran and seasoned M/A-COM Tech employee, she will also help define new product development requirements that meet market and customer needs.

Ms. Ramnath joined the company in 1998 as a Product Manager focused on CDMA handset solutions. She then held various business development and senior P&L positions within the company, leading growth teams that address multiple markets ranging from consumer entertainment to strategic defense applications. Prior to joining M/A-COM Tech, Ms. Ramnath was a Key Account Manager with RF Micro Devices (RFMD), Greensboro, North Carolina. As one of the first 100 employees of RFMD, she helped drive top line initiatives and launched the company's first SiGe chipset for ISM applications. Ms. Ramnath holds a BSEE from Northeastern University. She was named one of the 10 Women to watch in Technology by the Massachusetts High Tech association in 2004.

"Suja Ramnath has extensive experience in the RF and microwave semiconductor sector with an incomparable perspective of our company, our products and differentiators," said Joe Thomas, CEO. "I am confident that Suja's successes at M/A-COM Tech will continue to lead us in providing exceptional innovation, speed, service and quality to our customers."

"It is an exciting time at M/A-COM Tech and I feel privileged to lead the RF Semiconductors team," Ms. Ramnath responded. "I look forward to aligning our product portfolio with key markets and applications for our valued customer base to help drive our growth and success."

#### **ABOUT M/A-COM TECHNOLOGY SOLUTIONS INC.**

M/A-COM Technology Solutions Inc. (M/A-COM Tech) is a leading supplier of semiconductors, active and passive components, and subassemblies for use in radio frequency (RF), microwave and millimeter wave applications. The company provides innovative design solutions and products including:

- Si, GaAs, InGaAs, InP and SiGe IC products
- Unique MMIC processes: HMIC™ and GMIC™
- In-house design, fabrication, assembly and screening capabilities
- Multiple facilities for improved flexibility and local content manufacturing
- Design expertise covering the spectrum from RF through millimeter wave frequencies
- One of the broadest selections of standard and custom products in the industry

Headquartered in Lowell, Massachusetts, M/A-COM Tech builds on some 60 years of experience to develop and manufacture active and passive products, including Si and compound semiconductors from facilities in Lowell, MA, and Torrance, CA. Infrastructure products continue to be provided by the company's facility in Cork, Ireland, and Laser Diode products in Edison, New Jersey. M/A-COM Tech is certified to ISO 9001.
